ASTRONOMER IN RESIDENCE PROGRAM

Learn about the stars, planets, galaxy, Big Bang theory and cosmos with Ayers Rock Resort's Astronomer in Residence Program, brought to you in partnership with ASTRO3D. Join one of the free Astronomy information sessions to meet and interact with the resident astronomer and learn about their area of expertise.

MEET THIS WEEK'S ASTRONOMER IN RESIDENCE DR. ANSHU GUPTA

Anshu Gupta is a postdoctoral fellow at the University of New South Wales. Her main focus is how the environment plays a role in shaping galaxies as we see them today, from clouds of gas to others like the Milky Way. She combines observations from the 10-metre Keck telescope in Hawaii with cosmological simulations to estimate if the production rate of chemicals is different for galaxies living in isolation to galaxies living in giant galaxy clusters.

FREE ASTRONOMY ACTIVITIES & SEMINARS | DAILY - MONDAY TO FRIDAY

ASTRO GAMES & FACTS
